Job Description

We have an excellent permanent opportunity for a Project Manager to undertake and manage Multi-Utility projects, for a leading MURS accredited Connections Provider based in the North West.

The company is very well respected and are offering a permanent position with excellent benefits and continuous professional development for the successful applicant.

Key responsibilities:

The company has a 'mature' outlook, whereas you can map out your own day plan and take ownership of the current schemes, agree delivery dates with the developers, liaise with Networks for connections to the existing network.

The Project Manager will be required to make sure the work is carried out safely and to the requirements of Lloyds accreditation (NERS, WIRS and GIRS) as well as plan the work to achieve the required outputs and the teams meet the required production levels.

You will also hold pre-start and client meetings to ensure successful delivery of the projects and will work collaboratively with clients, internal staff, operatives, sub-contractors and other professionals to support this process and be responsible for all aspects of health and safety,
